

As an editor of E-IR, or as a contributor to one of our books, you are able to purchase E-IR's books at cost price – the price it costs to print and deliver the book.

ACCEPTABLE USE NOTE: We are only able to provide free e-book versions of our open access publications because proceeds from retail print sales enables us to recoup some of our significant production and editing costs. So, we ask that you only order personal copies for yourself, and do *not* share the codes with colleagues whose purchases we rely on to make future books possible. Many thanks.
